

Job Description

Job Title: Toolmaker
Location: Hythe, Kent
Salary (Benefits): £Competitive DOE
Closing Date: 21st February 2012

The Company:

Our client is one of the UK's leading manufacturers of precision engineered components and assemblies, Our client is affiliated to organisations that include top international companies such as Rolls Royce, Schneider Electric, Honeywell and ABB

Duties and responsibilities:

As manufacturers of pressed and machined metal parts we are looking to recruit a Toolmaker for a busy Tool Room to repair and modify tooling and to assist in the continuous improvement of tooling by means of experience and knowledge

The ideal candidate should be able to work under their own initiative and have the ability to solve day to day tooling issues

Knowledge of working in a similar environment is essential for this role as is being a good team player

The main duties will be –

- Carry out tool repairs to multistage progression tools and second operation tools and fixtures
- Modify tooling to improve production
- To assist in the continuous improvement ideas for making tooling more reliable
- To assist in the training of apprentices and trainees as required

Skills and Qualifications:

You must have a minimum of 5 years experience in a similar role and must be apprentice trained

In return, we offer you the opportunity to develop a good career within our company with competitive rates of pay, a quarterly profit share performance bonus, death in service benefit after 12 months employment, company contributory pension scheme and free parking with a friendly, supportive and approachable management team in a customer focused company.

Application Method: CV and covering letter to jonathan.cassidy@namtec.co.uk
